

Neuroscience/Cyclotron/Mass Spectrometry

University of North Dakota, Grand Forks, ND

Contract Amount: \$2,225,681

Contract Type: Multi Prime Contract

Owner: North Dakota Board of Higher Education
University of North Dakota

Architect: Johnson Laffen Galloway Architects, Ltd.

Completion: October 2004

Project Description: Neuroscience Building-New single story building with partial basement tightly located in a residential area. Twenty-two foot poured-in-place concrete shoring piers were used to hold a bank of transformers next to the basement excavation. The building consists of offices, laboratories and an upscale conference room with eleven-foot library shelving and glass walls. Cyclotron Lab-Renovation and structural infill of shell space in existing School of Medicine. Mass Spectrometry Lab and Bubonic Lab-Conversion of space on third and fourth floors of the School of Medicine building.
